Description

**Description:**

Ducray Anaphase Cream shampoo is the perfect supplement for anti-hair loss treatments. It prepares their action, through its original formula with Nicotininate and tocopherol, and GP4G. This patented association of active ingredients stimulates the microcirculation of the scalp and brings to the cells of hair bulb the energy elements necessary to their metabolism. Enriched in vitamins B5, B6 and B8, Anaphase shampoo-cream is also adapted to the weakened and devitalised hair. A regular use contributes to effectively preserve the abundance of hair. It gives hair its original strength, volume and vigour. Its particularly consistent creamy-texture allows massaging the scalp. Tested under dermatologically control.

Benefits:

Prepares hair scalp for hair loss treatments

It gives strength and resistance to the damaged hair  
Synthesis of high tolerance, without paraben, without silicone  
Enhanced moisturizing base & agents that add volume to the hair

**Use:**

Apply to wet scalp, emulsify and rinse. Process a second shampoo, massaging the scalp during 2-3 minutes. Apply your anti-hair loss treatment to rinsed and towel-dried hair, and then dry and brush your hair as usual.
