Description

**Description:**

The roll-on HIDROSIS CONTROL responds to the problem of excessive underarm sweating. Thanks to a synergy of assets, its triple action formula allows

- to absorb moisture
- to capture the odors caused by the degradation of sweat by bacteria
- sanitize by limiting bacterial growth on the surface of the skin.

**Results:**

- Antiperspirant efficacy 48H \*
- 35% perspiration from 3 days of use \*
- High tolerance formula

Formulated without alcohol or perfume, the roll-on shows a very good cutaneous tolerance.

Tested on sensitive skin.

**Use:**

Apply everyday to clean and dry skin.
