### Description

Ducray Ictyane Nutri UV Cream is a nourishing as well as protective daily face care with SPF 30 for dry to very dry skin.

Moreover, Ictyane Rich Cream efficacy lies in the original association of Acefylline and Abyssina oil, that acts to reattach the skin to synthesize its lipids and its natural moisturizing factors. Thus, it replenishes lipids and relieves skin's tingling sensations.

### Features:

-ICTYANE NUTRI UV's intelligent formula actively nourishes for 24h

## Ictyane Nutri UV Cream

---

-With SPF 30, the cream protects the skin against oxidative stress that UV rays cause.

-Its rich and invisible texture is quickly absorbed, leaving skin comfortable with no greasy effect.

### **Active Ingredient:**

Acefylline: activates the transformation of filaggrin, a natural protein, into amino acids that constitute the NMF (Natural Moisturizing Factor), acting as a micro-sponge to naturally capture and hold water.

### **Use:**

Apply Ictyane Nutri UV Cream to the face as well as neck every morning.  
In the case of intense or prolonged sun exposure, use a specific sunscreen.
