### Description

Durex Invisible Extra Thin are extra thin condoms which keep you protected while maximizing sensitivity. They're in a shape for a closer fit. Which combines with the ultra-thin material to help you to feel closer to your partner than ever.

Durex Invisible condoms are perfect for those who want to feel every movement of their most intimate moments. The extra-thin material helps to maximize sensitivity, perfect for those who become frustrated with regular condoms but still want to protect themselves from pregnancy or STIs.

Although Durex Invisible Extra Thin are extra thin, they're no more likely to break than any other condom. Durex condoms go through strenuous testing, which ensures that they meet or exceed all national and international standards for condoms, this includes these thinner condoms.

- Use a new condom for each act of sex.
- Tear open the package carefully. Do not use fingernails, teeth, or anything that can damage the condom.
