Description

Description:

Slim Design by Elancyl is a rebellious anti-cellulite treatment, favoring smoothing of cellulite for a firmer skin. It facilitates destocking, de-rigidification and drainage.

The first treatment that fights the three dimensions of cellulite

An anti- cellulite revolution in 3 acts: the 3D [caffeine complex] is able to act on the 3 major factors of cellulite, for a visible smoothing of the skin

. A care with a clever texture: reflective pigments for an immediate optical smoothing of the skin, from the first application.

Use:

Apply the cream in the morning, daily, on the targeted areas: the buttocks, hips and / or thighs.
