Description

Description:

Specially developed for the dehydrated skins, Eucerin Aquaporin Active Refreshing Body Milk brings an optimal, intense and durable hydration to your skin. Gluco-Glycerol contained in this ultra-refreshing formula activates the natural hydration level of the skin, called the 'aquaporines'. Your skin is intensely and durably hydrated, even in the deepest layers of the epidermis. Your skin is fresh, supple and soft. Suitable for sensitive skin. Clinically proven tolerability.

Use:

Apply once or twice a day, with gentle massage movements, preferably after cleansing.
