Description

Description:

Eucerin dermopurifyer oil control effectively works from the first application, revealing clearer and smoother looking skin over time. it is ideal for blemish prone skin.

The innovation:

1. 10% Hydroxy Complex- highly effective combination of peeling agents Glycolic , Salicylic, and Polyhydroxy acid helps to resurface the skin, unclogs pores and removes dead skin cells.
2. salicylic acid helps reduce blemishes and helps prevent new blemishes from appearing.
3. Licorice extract: has been shown to help soothe irritations

Non comedogenic

Use:

Apply once a day in the evening , on well cleansed face.
