### Description

**Description:**

Eucerin DermoPurifyer Scrub is an oil-free skin peel with Lactic Acid that removes impurities without drying out the skin. Suitable for face and body, the exfoliating action of natural micro particles works against dead skin cells ? one of the key causes of blackheads and spots ? and gently cleanses skin and removes make-up.

Pores are unclogged, impurities and blackheads are reduced and skin texture is visibly smooth and refined.

The product has been specially formulated for oily and blemish-prone skin which is not undergoing medication and can be used during pregnancy

Anti-bacterial, comedolytic, non-comedogenic, lightly fragranced

**Use:**

Use the scrub once a week, or more frequently if needed, instead of the Cleansing Gel

Wet your face and/or body

## Eucerin DermoPurifyer Oil Control Scrub

---

Apply product to your hands (use an amount about the size of a hazel nut)  
Gently massage onto face and/or body  
Rinse thoroughly  
Follow with the appropriate care product such as Eucerin DermoPurifyer Mattifying Fluid  
Avoid contact with your eyes  
Suitable for daily use
