Description

Description:

Eucerin Intensive Foot Cream 10% Urea gives dry to extremely dry feet the intensive care they need. Enriched with Urea and Lactate, it provides long-lasting moisture to even the most severely chapped and dry skin. It works quickly to relieve dryness and discomfort and leave feet feeling smooth and soft. Clinical and dermatological studies confirm excellent efficacy and skin compatibility in more than 600 cases of very dry skin. Fragrance-free.

Use:

Make sure your feet are clean and dry. Gently massage a small amount of cream into your feet, paying particular attention to your heels. Apply morning and evening.
