Description

Description:

Eucerin Hyaluron-Filler Concentrate is an intensive anti-wrinkle serum to be used in combination with the daily anti-age care. The formula combines high and low molecular Hyaluronic Acid to target and treat ageing skin where wrinkles originate and additionally contains bio-active Glycine Saponin to support skin's natural production of Hyaluronic Acid. With regular use, skin appears smoother and more youthful.

- Immediate smoothing effect.
- Wrinkles-filling action, even the deepest.
- Restarts the natural synthesis of hyaluronic acid.

Use:

Shake vial thoroughly before opening. Apply twice daily onto clean skin before your daily anti-age care, using gentle strokes to apply the product, concentrating on areas of concern. Avoid direct eye contact.
