Description

Description:

Eucerin Hyaluron-Filler Day Cream dry skin contains a unique combination of short- and long-chained Hyaluronic acid to penetrate and plump up wrinkles from within plus bio-active Glycine-saponin to further stimulate skin's own natural production of Hyaluronic acid, improving moisture retention levels and smoothing wrinkles from within. SPF 15 with a UVA protection prevents from premature ageing and even deeper wrinkles. Creates an ideal make-up base.

Directions:

Apply in the morning onto the face, neck and décolleté by gently massaging into skin, avoiding the delicate eye area.
