Description

Description:

Skin in the intimate area is especially sensitive and if its natural barriers are affected, it can become susceptible to irritation, discomfort and even infections. That's why it needs a mild and soothing cleansing product. Eucerin Intim-Protect has a pH value of 4.5, adapted to that of the female intimate area, and a mild surfactant tenside system. Formulated with skin's own Lactic Acid, it maintains the natural vaginal microflora, while soothing irritations.

Directions:

Eucerin Intim-Protect can be used in the shower or the bath. Thanks to its mild ingredients it is suitable for daily use.
