Description

Description:

It is a probiotic food supplement with Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium bifidum and Bifidobacterium lactis. It is suggested as dietary supplement in cases of poor nutrition or increased nutritional needs of those ingredients. Lactic ferments are useful to keep the intestinal flora healthy.

Recommended for:

- Rebalance intestinal function in case of dysbiosis
- Improve uptake of nutrients.
- Improve intestinal eubiosis during drug treatments
- Improve uptake of minerals taken from food

Use:

1 or 2 capsules per day with water, preferably on an empty stomach or at least 15 minutes before eating.
