Description

Description:

Eva Restore Ovules enhances and accelerates the healing of atrophic or injured vaginal mucosa, regulates the vaginal acidic pH to normal values, enhances the normal flora of the vagina and relieves from irritation and redness.

Indications:

- Atrophic vaginitis due to aging or estrogen deficiency
- After surgery of the vagina
- Vaginal mucosa dystrophy due to chemotherapy or irradiation
- Childbirth
- Contains 12,5 mg hyaluronic acid, bioecolia, lactic acid and botanical extracts.
- PH 3,8
- BT x 10 vaginal suppositories
- Without hormones or pharmaceutical substances.**

Use:

Therapeutically to enhance the healing capacity of damaged or atrophic vaginal mucosa: one application per day for 7 days, preferably at bedtime
Proactively to strengthen the defense of the sensitive vaginal epithelium, especially after menopause: one application per day for 3 days, every ten days, preferably at night before bedtime.
