Description

Description:

Fertilin is a dietary supplement with myo-inositol and folic acid.

-Inositol: Thanks to the assumption of both Inositol isomers, Fertilin takes the advantage of the process of epimerization optimizing the conversion of Myo-inositol to D-Chiro-Inositol.

-Folic Acid: Vitamin B9 is recommended for women seeking pregnancy, and women who are pregnant. Folic Acid is vital for the growth and cell division.

Use:

For adults, take two capsules daily as a dietary supplement, preferably with a meal or as directed by your doctor.
