Description

Description:

A dual action exfoliating mask to reoxygenate and reveal new skin.

Step 1: New-skin revealing scrub Massage gently on a clean face: perlite spheres gently exfoliate the skin while a proteolytic enzyme boosts skin desquamation for an intensive new-skin effect.

Step 2: Pro-youth bubbling mask When the scrub is completed, leave on the texture transforms into an active mousse. Micro-bubbles of oxygen are released to enable suffocated skin to breathe. When the bubbles have disappeared, it is time to rinse off.

A unique texture that transforms when in contact with skin.

Pores are tightened and skin texture is refined and smoothed. The skin seems reoxygenated, and glows with new-found radiance.

Use:

Spread Scrub and Mask in thick layer on a dry skin, by avoiding the eye contour. Massage with light circular movements during 1 minute. Leave on. Bubbles come, sign that the texture is charges in oxygen. After disappearance the bubbles (10 minutes approximately), rinse simply with

water.
