Description

Description:

Filorga has reinvented BB cream, drawing from its medical-aesthetic expertise, and created an all-in-one perfecting cream that combines all of the key stages of your beauty ritual, from care to make-up: moisture, wrinkle and redness correction and a radiant complexion.

- Comprehensive anti-ageing action: a powerful active ingredient corrects wrinkles by activating the skin's healing mechanisms.
- A protective index of 15 prevents cutaneous photo-ageing.
- Soothing and repairing action: the Unisoath complex immediately reduces redness and soothes fragile and sensitised skin for an even complexion.

- Corrective action and natural coverage: soft focus agents and latest-generation pigments blend into the skin for a flawless complexion.

Direction:

Apply every morning on the face by a light massage. It's easy-to-apply creamy texture blends gently into the skin.
Can be used alone or over a serum and/or a day cream according to skin type.
