Description

Description:

An ultra-lifting cream formulated with active ingredients derived from aesthetic procedures for a complete anti-aging effect. A luscious ultra-comfortable texture with a beautiful skin finish.

Benefits:

Surprising lift effectiveness [smoother features + redefined volumes]: Included in a cream for the first time, Plasmatic Lifting Factors® combines [Cell Factors + Collagen + Hyaluronic Acid] to visibly tighten the features, plump the skin and sculpt the face.

Intensive firming action: Derived from the latest research into biotechnology, a duo of botanical active ingredients stimulates the skin to restore tone and firmness. Facial contour - cheekbones - neck.

Use:

Apply daily morning and/or evening. Massage gently to make it penetrate.
