### Description

**Description:**

All Filorga's expertise in aesthetic medicine within an eye corrector to reduce wrinkles and dark circles, lift up eyelids and boost lashes.

Velvety cream texture

Day after day, wrinkles are smoothed, eyelids are firmer, dark circles fade, and lashes appear denser. The eyes look wider.

**Benefits:**

Wrinkles: A trio of active ingredients [hyaluronic acid + tripeptide + gentle peeling-effect active ingredient] to relax the features and smooth wrinkles in the eye area.

Eyelids and lashes: A lifting complex to fight against upper eyelids sagging and a stimulating matrikine to boost lash volume.

Dark circles: Filling spheres and stimulating complex, to reduce all types of dark circles: hollow and colored.
