Description

**Description:**

Flexitol Lip Balm's concentrated formula contains a synergistic blend of ingredients specially designed to hydrate and soften severely dry lips, keeping them smooth and healthy looking. Suitable for medical and general use.

**Benefits:**

- Suitable for use on severely dried lips caused by chronic anhydrotic
- Formulated to form a protective barrier on lips to guard against further moisture loss
- Enriched with menthol and clove leaf oil to effectively relieve pain caused by chapped lips
- Provides relief from the drying side effects of medications such as those used to treat acne or cancer or vitamin deficiencies

**Key ingredients:**

- 2.5% urea removes dead skin cells to allow moisturising emollients to access deep into the skin to replenish lost moisture
- Petrolatum sticks to skin and works like a barrier to prevent further moisture loss from dry lips and keeps balm on site of application
- Menthol acts as a painkiller to analgesic to alleviate the soreness and discomfort associated with dry lips

**Use:**

Apply liberally to affected area not more than 3 to 4 times daily. Suitable for adults and children 12 years of age and older.
