### Description

**Description:**

Flexitol Lip Balm for severely dry, chapped lips helps to alleviate soreness and discomfort, and visibly softens and smooths lips quickly. With 2.5 per cent synthesized urea for better penetration, the rich emollient base of Flexitol Lip Balm will hydrate dry lips. Featuring a chiseled applicator for easy application. Flexitol Lip Balm's concentrated formula contains a synergistic blend of ingredients designed to hydrate and soften severely dry lips, keeping them smooth and healthy looking. **Key Ingredients:**

**2.5% urea** removes dead skin cells to allow moisturising emollients to access deep into the skin to replenish lost moisture

**Petrolatum** sticks to skin and works like a barrier to prevent further moisture loss from dry lips and keeps balm on site of application

**Menthol** acts as a painkiller to analgesic to alleviate the soreness and discomfort associated with dry lips
