Description

Description:

GLOVIT®-CAL caplet contain a combination of Calcium from an organic source, Vitamin D3 and Minerals.

Calcium is essential in the cases of calcium deficiency, hypo-parathyroidism, Vitamin D3 deficiency, during pregnancy, lactation, menopause, and in hyperphosphatemia. Vitamin D3 is helpful in cases of rickets or osteomalacia and also manages hypocalcemia.

Minerals are important for protecting our body cells and in helping to keep bones, teeth and skin in a healthy state. These minerals also play important roles in wound healing and muscle functions, formation of hemoglobin, control of blood sugar and possibly lower the cholesterol levels, Magnesium is “anti-stress” mineral, converts blood sugar into energy.

Manganese helps to nourish the body’s nervous system, brain and regulate muscles in the body. Zinc is part of bones, teeth structure and it is important for wound healing and immune function.

Copper helps in the formation and maintenance of healthy bones. Boron helps the body to maximize the use of these minerals.

Use:

One caplet of GLOVIT®-CAL to be taken once daily with meals, as food supplement or as prescribed by physician.
