Description

Description:

Gold Collagen® Forte is a new liquid beauty supplement specifically designed to meet the needs of women over 40. At this age the effects of time, hormonal shifts and lifestyle begin to take their toll on the skin - it feels less firm, drier and wrinkles appear deeper. The skin's natural defenses weaken and become more susceptible to oxidative stress, which accelerates the ageing process. To help counteract the appearance of advanced signs of ageing, GOLD COLLAGEN® FORTE is enhanced with 2x more moisture-retaining hyaluronic acid compared to the PURE GOLD COLLAGEN® formula. The collagen-enriched formula also combines a unique, powerful blend of anti-oxidants including resveratrol, acai berry, coenzyme Q10, pomegranate, lycopene and L-carnosine. It works from within to help reinforce the skin, boosting collagen, elastin and hydration levels as well as providing protection against oxidative stress. With daily use, the skin becomes more hydrated and fine lines and deeper wrinkles will appear reduced. Your skin will start to recover its suppleness and radiance while hair and nails appear healthier. Contains: NO sugars, NO artificial sweeteners, NO artificial preservatives, NO artificial colours, NO alcohol, NO GMO. Halal & Kosher certified. GLUTEN FREE.

Usage:

For best results drink 1 bottle (50ml) of GOLD COLLAGEN® FORTE daily on an empty stomach for best absorption. Alternatively you can consume the product after meals if you experience indigestion or gastrointestinal upset.

We also recommend taking the product as an energy boost because it contains vitamin B6, which contributes to the reduction of tiredness and fatigue, at 118% Nutrient Reference Value (NRV) formerly known as Recommended Daily Allowance (RDA). Shake the drink well before use and do not exceed the recommended daily dose.
