Description

Description:

Migraine is an intense and debilitating disorder that can severely affect your lifestyle. Since Migraine is chronic, preventing and reducing the duration and intensity of attacks is essential to continue leading a normal life.

Green Made PrevaMig is made from standerized *Petasites hybridus* extract, which has been clinically proven to reduce migraine frequency, duration, and intensity.

According to the latest migraine guideline published by the American Academy of Neurology, PrevaMig is recommended for all migraine patients as the first choice for preventing attacks.

Green Made PrevaMig is 100% free of Pyrrolizidine Alkaloids (PA's).

Each Capsule contains 75mg of *Petasites hybridus* extract standerdized to 15% petasins.

Directions:

Adults and Children aged 12 and above, take one capsule in the morning and one in the evening, with food.

Children between 6 and 12, take one capsule daily with food.
