Description

Description:

Vitamin E 400iu contains Vitamin E, which functions as a natural powerful antioxidant, helping to combat free radical damage to the body. It is also important to support vital nutrients such as Vitamin A and unsaturated fatty acids from oxidative damage. Oxidation of cells is a process connected to cellular ageing, which can bring harm to the body. Vitamin E is important to maintain a healthy heart, support red blood cells and nourish the skin. These Vitamin E capsules are suitable for vegetarians and are gelatin free.

Benefits:

- Contributes to protection of cells from free radical damage
- Contributes to protection against air pollution, toxins and protect skin from ultraviolet radiations and sunburns
- Contributes to normal function of the immune system
- Contributes to normal circulation and blood vessel function
- Improves and maintain skin tone

- Beneficial against hot flushes in menopausal women
- Beneficial in reducing premenstrual symptoms

Use:

Adults and children over 12 years of age, one capsule daily after food, can be increased up to two capsules daily.
