### Description

**Description:**

This cream is the gentlest, most effective method of exfoliation. It deep cleanses the skin, eliminating dead cell layers and all impurities missed by normal cleansing. It enhances the cell renewal process. Shea butter, with its rich content in cellulose, moisturizes and ensures a very gentle exfoliation. Suitable for all skin types. Paraben free.

**Use:**

Apply a thin layer all over cleansed and dry face and neck, avoiding the eye areas. Leave on for 1 minute. Gently massage until small rolls appear. Remove any residues with a cotton pad soaked in the Tonic Lotion or rinse with fresh water.
