Description

Description:

This intensive anti-aging treatment to light and melting texture replenishes the skin, fills the hollow fight against wrinkles and sagging skin. **Innovation:** HELIABRINE® laboratories have developed a unique formula that combines a high concentration of hyaluronic acid in 'Iparzine 4A®', an exclusive patented regenerative active for visible results from the first applications. From 7 days, the skin becomes visibly firmer and denser, wrinkles decrease (-25% * deep wrinkles). After 28 days of use, even deep wrinkles are corrected, the skin regains volume of youth. * Test instrumental in vivo under dermatological control. Paraben-free.

Use:

Apply morning and evening to face and neck after cleansing. Rub Massage in upward and emphasize the most marked. On a fine and delicate texture, this emulsion penetrates quickly and can be applied on the wrinkles around the eyes. For maximum effectiveness, you can apply at night, under this treatment regenerative bulbs Marine Collagen HELIABRINE®.
