Description

**Description:**

Formulated with extracts of chestnut and holly (selected for their saponin content: aescine and ruscogenin) which support a good normal venous circulation and contribute to ensure the normal maintenance of the protection and the tonicity of the venous walls in synergy with the witch hazel.

A study shows the interest of the extracts of small holly associated with the phytochemicals of the chestnut, for the venous comfort of the lower limbs (Facino & coll, 1995)

**Use:**

2 capsules a day: one capsule to be taken during the lunch and one during the evening meal. Do not consume in case of anticoagulant treatment. Not a substitute for a varied and balanced diet and a healthy lifestyle. It is not recommended to exceed the daily indicated dose. Not recommended for pregnant or breastfeeding women.
