Description

Description:

This exceptional « Nouvel Âge » concentrate, developed for mature and/or very dry skin, helps rebalance lipid deficiencies, strengthens skin cohesion, minimises volume loss and combats sagging skin. Visibly redensified, the skin regains its firmness, suppleness and elasticity, and the facial outline is redefined.

Features are smoothed and skin is replenished. Well hydrated, the skin becomes tighter, more comfortable and more resistant.

A precious formula, bringing together Mondo grass and Peony extracts, Lipidure®, a duo of hyaluronic acids and gold powder, combined with

HORMETA's specific trace elements complex.

This unique serum with fine particles of gold dust that melts on the skin will help it regain its full radiance.

Results:

86% Skin is denser.

The contours of the face are smoothed 86%, skin is plumper 81%
Skin is more resistant and its suppleness is restored 86%
Skin is more supple and comfortable 90%
Skin is toned 90%

Skin is significantly better hydrated and replenished
The contours of the face are noticeably redefined.

Use:

Apply in the morning and/or evening on thoroughly cleansed face and neck.
Let penetrate before applying the appropriate skincare cream.
