### Description

#### Description:

NEOTONE® is a range for pigmentation spots. Adapted products with a perfect synergy of ingredients correcting, maintaining, preventing and protecting skin hyperpigmentation to help the skin recover its natural balance. NEOTONE® reduces efficiently brown spots and prevents their reappearance by combining 6 powerful synergic active ingredients that reduce their intensity and contribute to their elimination. 80% of the subjects who tested the product observed a decrease in the number of spots and their intensity.

#### MAIN INGREDIENTS PROPERTIES

- **DIACETYL BOLDINE:** prevents the apparition of melanin
- **LICORICE + ?-ARBUTIN + ASCORBIC ACID:** slow down the melanogenesis

- **GLYCOLIC ACID + SALICYLIC ACID:** exfoliate the preformed melanin

**Direction:**

Apply NEOTONE® every night on the hyperpigmented areas or as directed by your dermatologist or healthcare professional. Can be used before your daily night care. Avoid any contact with eyes.
