Description

**Description:**

Unitone 4 White is a night cream lightening skin discoloration, with its concentrated active complex, 4 White Unitone reduces the excessive production of melanin which is responsible for pigmentation spots.

1. Active Complex Concentrate fight against overproduction of melanin
2. Glycolic Acid exfoliates the preformed melanin in the skin surface. Il nettoie la peau en exfoliant les cellules mortes It cleanses the skin by exfoliating dead cells
3. Ascorbic acid improves skin radiance, it reveals and renews the skin's brightness

Hyperpigmentation is caused by many factors:

- Hormonal disorders,
- The physiological process of aging of the skin,
- Hormonal contraception,
- Pregnancy,
- Some cosmetics and perfumes.

**Application:**

Apply Unitone 4 White once a day, only at night to the areas to be treated. Do not use during daytime.  
The maximum period of application is 3 months.  
In the morning, before going out, put sunscreen.
