Description

Description:

La Roche-Posay Cicaplast Lips intensely replenishes chapped and sore lips.

The protective formula creates a layer on the lips, filling in cracks and preventing external aggressions from worsening the problem.

A 5% concentration of panthenol provides instant, intense relief from discomfort and repairs the damaged skin, while 3% MP-lipids recreates the hydrolipidic film to prevent chapping.

From the very first application, lips are soothed and comforted. After 4 weeks, irritation is reduced around the lip contour, and new cracks are reduced.

Paraben free - Fragrance free.

Use:

Apply as often as required. The compensating formula is suitable for all skin types including patients taking Roaccutane, and is allergy tested under dermatological control.
