Description

Description:

LAC Taut® Radiance is an advanced multi-action beauty supplement featuring premium collagen from the finest fish source, the red snapper. Combined with synergistic age-defying ingredients, Grape Seed Extract and Glutathione, LAC Taut® Radiance targets fine lines and dull skin from deep within for superior firming, hydrating and rejuvenating results – unveiling youthful, luminous and supple skin you never thought possible.

Collagen is one of the key building blocks of firm, luminous and youthful skin, yet as we age, the body produces less of it and naturally occurring enzymes break it down, causing the skin to thin and wrinkles to form.

In its natural state, the collagen "supermolecule" is too large for the body to absorb effectively. Topical collagen creams, serums and other skin care products may temporarily plump the skin with retained moisture, but do little in terms of long-term hydration and revitalization as the natural collagen molecule is too large to penetrate outer layers of the skin. **Directions:**

Take 3 to 6 caplets daily after meals. For best results, use together with LAC Taut® Premium Collagen Drink.
