Description

Description:

Olea Naturae Argan Oil Bath and Shower Gel stems from the experience of the researchers at the Angelica Herbalist Institute. Packed full of antioxidants and used for centuries by Berber women as an elixir of beauty and youth, the organic argan oil, also known as desert gold, used in L'Angelica Olea Naturae Bath and Shower Gel is cold-pressed to ensure as many of its natural properties as possible are retained. Rich in essential fatty acids, it helps to maintain an optimal hydration level for your skin, keeping it soft, supple and velvety. Paraben-free. Paraffin-free and silicone-free.
