Description

Description:

Traditional colouring products containing ammonia and peroxide can devitalise the hair. Without appropriate care, the hair scales quickly lift, resulting in loss of pigments. Colour shine is dull and fades. Your hair feels dry and rough.

Enriched with Camellia oil, highly concentrated in Omega 6, combined with botanical antioxidants, this enveloping texture with delicate floral aroma, will prolong and protect colour shine. This hair mask brings nutrition to the hair fibre, protects the colour and prolongs colour radiance. Your colour is vibrant and hair is intensely silky.

Use:

Colour treated and dry hair: after shampoo, remove excess water then apply to hair lengths and ends. Leave for 2 to 3 minutes then rinse.

Colour Treated and very dry hair: apply before and after shampooing. On dry hair, spread the mask before shampoo on the lengths and ends.

Leave on for 15 to 20 minutes. Rinse and then shampoo. Remove out excess water then re-apply the mask. Leave for 2 to 3 minutes then rinse.

In case of contact with eyes, rinse abundantly.
