### Description

**Description:**

Your scalp is oily due to overactive sebaceous glands. The sebum spreads over the scalp and hair. You need to shampoo your hair frequently. With its sulfate and silicone-free formula, this shampoo enriched with propolis, regulates sebum secretion and instantly purifies from roots to ends, without irritating the scalp. Propolis has therapeutic properties (antiseptic and antibacterial) which helps to control sebum production, leaving the hair lightweight and the scalp rebalanced. With regular use, you can reduce the frequency of shampoos.

**Use:**

Wet hair thoroughly. Spread evenly over the hair, massage gently to create a lather then rinse. Proceed with a second application. In case of contact with eyes rinse abundantly.
