Use:

Our products are wide collars for easy cleaning, Before first use, dive the product into boiling water and leave it there for 5 min. For later use, clean the bottle (s) and teat(s) -nipple (s) thoroughly. Wash and rinse. Carefully wash all items with hot water and some washing up liquid. To assemble a bottle: start by inserting the teat-nipple into the ring and please check that it is adherent, then it is enough to tighten the ring with the

teat-nipple in it on the body of the bottle, tightening must be firm but not excessive. For the 13 Oz bottles do not forget to use the reduction ring flat face up, before tightening the ring.
