Description

Lierac Lift Integral Night Restructuring Cream tones facial contours, smoothes out the jawline and redefines the lower face profile. This night cream associates a center of lifting active ingredients [mahogany extract + purple tulip extract] to the anti-aging Hyalu-3 concentrate. Moreover, it is enriched in zerumbet ginger with draining and destocking properties for the face's bottom. Besides it has an active envelopping cream texture which contains an emulsifier of plant origin. It forms a mesh, which sheathes the skin. Lierac Lift Integral Night Restructuring Cream has a fresh and deliciously flowery fragrance that combines notes of white freesia, sambac jasmine, wild berries and velvety sandalwood. Thus, it maintains a feminine touch.

Use:

Apply each evening after cleansing and serum use to face and neck. Gently place on cheeks, forehead, neck, and décolleté. Move outward from the cheeks to the ears, from the center of the forehead to the temples, and from the jaw down the décolleté.
