Description

Description:

Lifeplan vitamin E 400iu capsules contain high quality, naturally sourced vitamin E and are one of the finest available. Vitamin E is the major fat soluble antioxidant that protects our bodies against free-radical damage. It prevents saturated fatty acids and vitamin E from breaking down and combining with other substances that may become harmful to the body. The more fat one consumes, the more vitamin e required. Vitamin E also has the ability to unite with oxygen and prevent it from being converted into toxic peroxides. This leaves the red blood cells more fully supplied with the pure oxygen that the blood carries to the heart and other organs. Gluten free. No yeast, starch, artificial colors, flavors, or preservatives. Contains soya.

Use:

As a supplement, take one tablet a day with a food.
