Description

Description:

Lipoxyne can burn at least 130 kcal from the first intake without physical effort, and up to 500 kcal with physical effort.

Thanks to a patented revolutionary active ingredient, Glavonoid is an exclusive powerful lipo reductor. It's effectiveness is enhanced by the innovative Biaminoee active ingredient, a metabolic accelerator and cellular oxygenator.

Benefits:

Lipoxyne works where other slimming products do not act ; on the installed greases.

Very different from the fat absorbers that transport lipid from food to transit, as effective as high protein diets, without the adverse effects, nor

Lipoxyne Fat Burner

the yoyo effect. It's effectiveness increases with the practice of physical exercise.

How to use:

Take 4 Tablets daily far from meals or 4 tablets just before your exercise
