Description

**Description:**

Biotopix is an advanced anti-wrinkle cream and the first dermo-cosmetic product tested and approved by plastic surgeons and dermatologists as an efficient treatment of wrinkles. Improves, completes and prolongs the effect of botulinum toxin and/or collagen injections.

For the first time, the unique formulation of Biotopix permits to combine active ingredients working at different levels:

- Stimulation of collagen production by fibroblasts.
- Strengthening of the structures of the dermal-epidermal union.
- Reduces wrinkles on the forehead and eyes caused by facial expression muscles.
- Improvement of collagen fibers was 60% after 3 months of use.
- First results are visible after 15 days of treatment with Biotopix.

Made in Switzerland

**Use:**

Apply on a previously cleansed skin, and allow to penetrate. For best results, use twice a day - on mornings and evenings.
