Description

**Description:**

Quasix® cream is designed for the care of permanent redness of dry/combination skin.

Quasix® cream is based on the interaction of four components:

- Quassia (Quassia amara) extract has an antiparasitic and antibacterial action which is especially efficient in taken care of papules and/or pustules. Quassia extract is also known or its anti-inflammatory and antioxidant action.
- Nicotine amide (Vitamin B3) is a potent inhibitor of inflammation which helps to maintain the barrier function of a healthy skin.
- Glycerol is a skin-friendly humectant which binds water in the skin.
- Sorbitol helps to maintain optimum balance of skin moisture.

Made in Switzerland

**Use:**

Apply a thin layer twice a day on dry and clean skin in need of treatment. Make up is possible after the cream is well absorbed.
