Description

Description:

QUASIX® gel is designed for the management of facial redness and rosacea in oily skins. Quasix gel contains four antibacterial, anti-inflammatory and antioxidant ingredients which reduce redness of the skin, strengthen skin's protective mechanisms and hydrate it. Quasix gel can also be used in moderate and severe rosacea. Made in Switzerland

Use:

Apply a slight layer of gel twice a day on the area to be treated on dry and clean skin. Once the cream is well absorbed, makeup is possible.
