Description

Description:

Lypotrol® is a natural combination of polyphenols extracted from citrus and targeting body weight management.

Lypotrol® works as a safe and non-thermogenic fat burner to reduce the excess of fat mass.

Lypotrol® is a product, comprised of citrus polyphenolic extracts of red orange, grapefruit, and orange. The extract works by inhibiting the PDE enzyme and stimulates lipolytic activity. In essence, it enhances the fat-burning process and it helps boost metabolism and speeds up fat loss.

LYPOTROL BENEFITS

Decreased Body Weight
Reduced Body Fat Levels
Enhanced Lipolysis
Waist and Hip Circumference Reduction
Reduce oxidative stress and inflammation
Boost Energy Levels
Improved Metabolism Rates
Supported by several Clinical studies.

Use:

1 tablet 2 times a day with plenty of water approx. 30 minutes before breakfast and lunch or training/exercise or otherwise after consultation of your doctor.
