Description

The Medela Special Needs Feeder is a unique feeding system designed for babies with a great variety of conditions, including:

Prematurity

Weakness after a cold or an illness.

Severe colic.

Cleft lip/palate, Pierre Robin Syndrome.

Down's Syndrome.

Cerebral Palsey/Heart Condition.

Chromosomal abnormalities

The Medela Special Needs® Feeder can be used for all babies provided they can swallow adequately.

Advantages of The Medela Special Needs® Feeder

Rewards the weakest suck.

Cuts feeding time.

Adjustable flow rate – no overflow.

This allows a variable flow rate so that baby never receives too much milk at once.

Reduces wind and vomiting.

Helps baby's sucking efforts.
