### Description

Mustela Stelatopia Cleansing Cream restores barrier function of the skin, soothes irritation and itching and helps to restore balance of bacterial flora of the skin.

Ideal for eczema prone skin in babies and young children. It gently cleanses the skin thanks to an innovative combination of natural-origin ingredients.

An emollient skin care product for on the face and body, from birth on. This special formula, developed especially for dry and atopic skin, moisturizes, nourishes, and replenishes lipid levels in the skin. An innovative combination of active ingredients of natural origin, such as avocado perseose and sunflower oil distillate, soothes the skin while reducing discomfort and redness.

Using this product twice a day for at least three weeks can visibly reduce the symptoms of atopic dermatitis, therefore reducing the need for medical treatments. The smooth and velvety texture quickly penetrates and instantly restores a sense of comfort to dry skin.

## Mustela Stelatopia Cleansing Cream

---

### Main Ingredients :

- Avocado perseose moisturizes and protects the skin barrier, which is often damaged on atopic skin;
- Sunflower oil distillate soothes and provides lipids essential to maintaining the skin's moisture barrier.

### How to use :

Apply Mustela Stelatopia Cleansing Cream twice a day to the dry skin of the face and body but after cleansing.
