Description

Description:

NoDol Cream, the ESI researchers created this product in order to exploit the benefits of its components: Glucosamine, MSM (Methylsulfonylmethane), Willow (which contains salicyl alcohol and glucose), Devil's Claw (a desert plant), Mountain Arnica (well known for its beneficial action) Aloe (well known for its soothing action, it protects the skin from external agents and maintains it healthy and hydrated). It may be effectively applied in case of articular pain and stiffness. Colorants-free. Clinically tested.

Use:

Apply cream, at least twice a day, massaging the affected area until its complete absorption.
