### Description

**Description:**

From the dept of the ocean comes another gift essential to life. Omega-3 fatty acids are particularly high in EPA (Eicosapentaenoic acid) and DHA (Docosahexaenoic acid). These oils lower blood triglycerides and cholesterol, aid circulation, prevent blood clots, and help arthritic conditions. EPA regulates cell hormones, and protects the body from high blood pressure, edema and inflammation. DHA is important for vision, hearing and the reproductive system.

**Use:**

Take 2 softgels daily, or as directed by your health care professional or pharmacist.
