Description

Description:

Nuxe Body Body-Contouring Serum for Embedded Cellulite brings an immediate optical smoothing to all the zones of the body, through a formulation with its formulation with botanical caffeine, flowers extracts and polyphenols. This ultra-concentrated slimming serum offers a global slimming action to reduce the aspect of the incrustated cellulitis. From the application, the photo-corrective pigments ensure an immediate smoothing of the cutaneous texture (91%). 3 actions :

- Unstoring action : Cocoa polyphenols, botanical caffeine, yacon leaves extract.
- Evacuation of fats : Stimulating micro-algae.
- Reshaping action : re-contouring Brasil Mimosa and Glaucine.

Use:

Apply each day to the zones to treat. Massage until complete absorption.
