Description

Description:

The OMRON RS3 is a compact and easy to use blood pressure monitor, operating on the oscillometric principle. It measures your blood pressure and pulse rate simply and quickly. For comfortable controlled inflation without the need of pressure pre-setting or re-inflation the device uses its advanced "IntelliSense" technology.

This product is designed to measure the blood pressure and pulse rate of people within the range of the designated wrist cuff, following the instructions in the instruction manual.

It is mainly designed for general household use. Please read the Important Safety Information in the instruction manual before using the unit.

Made in Italy
